

Missouri District LWML Mission Grant 2006-2008

Warming the Facility and the Soul for Jesus - Warrensburg \$24,980.60

LWML mites will provide funding to replace 35-year-old heating and cooling units at St. Timothy Lutheran Chapel and Campus Center, a/k/a Lutheran Campus Ministry at Central Missouri State University in Warrensburg, Mo. The center provides a place to worship and praise the Lord and is a safe-haven from the pressures of the outside world. This ministry is a true faith-walk as it relies on private donations for 83% of its budget needs.

Dear Heavenly Father, We have been blessed in this country to have so many institutions of higher

learning. We thank You for the establishment of many Lutheran Campus Ministries, such as St. Timothy Lutheran Chapel and Campus Center in Warrensburg, which provide a place to worship You and a safe haven from the pressures of the outside world. Knowing that this ministry relies mostly on private donations, we thank You for the great opportunity to help provide funding for replacement of very old heating and cooling units. Please continue to richly bless this witnessing ministry which is so vital for our students. We pray this in Jesus' name. Amen.

Dear Ladies,

Without friends like you, we wouldn't be so successful. Your donation of \$24,980 to upgrade our heating system, is a source of encouragement to all of us as we continue ministry on the campus of UCM Thank you!

Sincerely,

Donna L Drees,
Director

This ministry was able to have these units installed at a better price and returned \$6030.60
